

## Deltagere i det nordiske forskernetværk om "Læring i arbejdsliv."

### Norge.

**Monika Nerland** is Associate professor in education at the Institute for Educational Research, University of Oslo. She teaches in the areas of higher education and work life learning, and conducts research on institutional practices and learning in professional education and work. A particular interest is the ways in which organization of knowledge in professional communities constitute practices of learning and identity formation. She is currently the leader for the research project *Learning trajectories in Knowledge Economies* (LiKE), funded by the Research Council of Norway.

Staff profile: <http://uv-w3prod01.uio.no/staffdirectory/singleview/v1/index.php?user=monikn>

### Danmark.

**Steen Høyrup Pedersen**, Associate Professor Department of Learning

Area of expertise. Research based knowledge in work place learning, competence development and organization development

Staff profile: in Danish [www.dpu.dk/om/shp](http://www.dpu.dk/om/shp)

In English <http://www.dpu.dk/site.aspx?p=6604&init=shp&msnr=1&lang=eng>

### Finland

**Hanna Toivanen**, PhD Researcher, CRADLE Center for Research on Activity, Development and Learning (Center for Activity Theory and Developmental Work Research) University of Helsinki

Post-doctoral research project "Multiple mediation of learning in networks", Academy of Finland 2008-2010.

## **Sverige.**

**Andreas Fejes**, Associated professor, Department of Behavioural Sciences and Learning, Linköping University, Sweden.

Secretary of ESREA, European society for research on the education of adults

Editor of the European Journal for Research on the Education and Learning of Adults (RELA)

Interview with Andreas in Swedish published by LiU-Nytt

Interview with Andreas published by Umeå University

Research interests: My main area of research concerns the fabrication of learning adults through different technologies and techniques. My theorization is mainly inspired by Michel Foucault, and his notions of governmentality, genealogy, power/knowledge, subject and technologies of the self.

I'm also interested in research on recognition of prior learning (validation) within different practices such as within elderly care work and adult education.
